The chart illustrates the projected growth of the population aged 65 and over in the United Kingdom. The x-axis represents years from 1950 to 2070 in 5-year increments. The y-axis represents the number of people in millions, ranging from 0 to 10. The bars are stacked, with colors representing different age groups: blue (65-69), green (70-74), yellow (75-79), orange (80-84), and red (85+). The population remains near zero until the mid-1970s, then shows a steady increase, with a particularly sharp rise starting around 2000. By 2070, the total population is projected to reach approximately 10.5 million, with the largest segment being the 65-69 age group (blue).
